Quarterly field notes

A compact document for testing selection, annotation, page rotation, reordering, and PDF export.

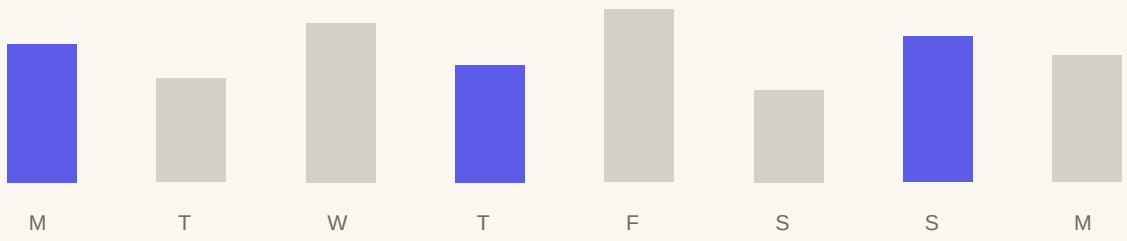
What to try

Open the inspector, select a tool, and mark up this page.

Then export and reopen the file to check fidelity.

01

Weekly engagement



Observations & signals

Use the highlight, rectangle, and ink tools on this page. Every edit is flattened into the exported PDF.

Signal	Direction	Confidence
Faster document review	Up	High
Annotation adoption	Up	Medium
Export fidelity concerns	Down	High
Team sharing requests	Up	Medium

Note

Scanned pages and true text reflow are intentionally marked as limitations in this build.

A working appendix

Try rotating this page, duplicating it, then exporting. Reopen the download to verify the result.

01 **Open a PDF**

Use the picker, drop a file, or load this sample.

02 **Annotate**

Text, highlight, rectangle, and ink are flattened on export.

03 **Organize**

Rotate, duplicate, reorder, and delete pages.

04 **Export**

Download a real PDF and verify the changes survived.
